our planet

YOUR DIGITAL SCIENCE FESTIVAL | 18-20 FEBRUARY

Get curious with Glasgow Science Centre's first digital science festival and explore our planet and the science of climate change. Take part in workshops, find out about citizen science projects, or download lots of fun and educational resources for your pupils.

With three festival tents, there's so much to discover at
Curious About: Our Planet

Here's a suggested programme to get you started.

Edinburgh Zoo Tours

18, 19 & 20 Feb | 11.00 | Atmos theatre | 8+

Join the team at the Royal Zoological Society of Scotland and learn how they are saving precious animals through their important conservation work in Scotland and around the world.

The Promise

18 Feb | 12.00 | Atmos theatre | 8+

Discover how one person can make the world greener and fairer, in this urban fairy tale, out on the mean streets of a mean city in this beautiful animation.

Citizen Science Projects

Available throughout in the Envirotent

Make a real contribution to your local environment and support scientists by helping to collect data from your area for their research. From monitoring bee species in your local park or garden to hunting for nurdles on the beach, there are loads of resources to help you make an impact.

WWF Talks

18, 19 & 20 Feb | 10.00 | Atmos theatre

Discover the wider impact of climate change on wildlife in Africa, the polar regions, and Scotland. Experts from WWF will share with us the work they do to protect endangered species in these areas including how technology can be used to support the peaceful co-existence of wildlife and humans. Followed by a live Q&A.

18 Feb | Human-wildlife conflict in the Arctic

19 Feb | Climate change in Scotland

20 Feb | Climate change and species in East Africa

Gaelic Language Resources

Available throughout

To support climate change lessons in Gaelic, we have worked with partners to source a range of resources in Gaelic – reading of The Promise in Gaelic; An Dràsta, climate voices from North Uist and an exhibition from Taigh Chearsabhagh Museum & Art Centre.

Plus loads of useful resources to support learning on the topic of climate change.
